PROFILE SUMMARY

Computer Engineer with hands-on experience in full-stack development, cloud technologies, and machine learning. Adept at designing and deploying scalable web applications using modern frameworks like React, Node.js, and Python. Proven ability to lead teams, solve complex problems, and deliver AI/ML-powered solutions tailored for real-world impact. Passionate about building innovative digital products and creating intelligent systems—including AI-generated video content—for business growth and automation. Currently seeking a dynamic software development role to contribute creativity, technical expertise, and strategic thinking.
